- Assisted in building beautiful user interfaces for clients without compromising functionality for aesthetics.
- Learned Object Oriented Programming for building quality web apps.
- Instructed and mentored students in front end development.

## PROJECTS

### Netstack

#### Designer, Developer

📅 2021 - current

- Currently building an web app, that allows users to stream and download movies online.
- Used React to allow admin to instantly update the movies on the web app.
- Working on adding premium accounts using firebase, which allows users to premium users to stream and download unlimitedly at high quality.

## CAREER OBJECTIVE

Front-End Developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I attended a 100+ hour coding bootcamp to learn new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.
