## SKILLS

### PROGRAMMING

#### Frontend

HTML • CSS • JavaScript  
BOOTSTRAP, TAILWIND, SASS  
Reactjs • Redux

#### Ejs

#### Backend

Node • Express

#### Backend As service(BaaS)

Firebase

#### DataBase

MongoDB • PostgreSQL

#### Familiar:

C • React Native • PHP

## COURSEWORK

### GRADUATE

The Complete Web Developer in 2018  
Zero to Mastery  
Complete JavaScript Course For  
Beginners to Master - 2019  
Complete React Developer in 2021 (w  
Redux Hooks GraphQL)  
Mastering the Coding Interview (FAANG)  
- Course Outline

## EDUCATION

### OBAFEMI AWOLOWO UNIVERSITY

BSC. INDUSTRIAL CHEMISTRY  
Nov 2019 | Osun State, Nig

### FEDERAL GOVT. COLLEGE

Grad. July 2013 | Ikirun, Osun State

### TOOLS

Vscode  
Chrome  
Photoshop  
Github  
Chromium

(Documentation and writing)

Microsoft packages, Notion

## EXPERIENCE

### MYSTASH.NG | SOFTWARE ENGINEER

Oct 2021 - April 2022 | Lagos, Lagos State

- Implement and test new features and functionality.
- Rebuilding of the second iteration of the core server.
- manage the backend of the website, users account, data and general backend routine.
- Work with other engineers to fix bugs and implement new feature to the web app and also the servers
- Build beautiful UI web app with react.js and implement new design whenever needed.

### MARVEL NG | FULL STACK DEVELOPER

Dec 2019 - Aug 2021 | Ile-ife, Osun State

- Design and manage the company ecommerce website.
- Update designs and revision of the website frontend.
- manage the backend of the website, users account, data and general backend routine.
- Upload, update and manage the products on the website.
- Make graphic design for the company to be posted on social media platforms.

## FREELANCE

### UPWORK | FREELANCER | WORDPRESS/WIX WEB DESIGN

Platinum Travels and Tour

Website Link:// **PlatinumtravelsandTour** NadoL.org

Website Link:// **Nadol**

- Develop and Design WordPress/WIX website for the clients/company.
- Deploy and Optimise the website, speed and functionality.
- Manage and Update the website with latest Updates by client.

## PROJECTS

### IFACE | FACE RECOGNITION WEB APP

React, CSS, PostgreSQL, Nodejs, PostgreSQL, Clarifai API

- This project takes image url from the user and returning to the user the image and detecting if there is a face in the image
- keeps track of user activity.
- Number of times, faces detected.

### TURISTA | HOME OF TOURIST CENTERS

Ejs, CSS, Node(express.js, MongoDB

- create a commercial environment for Nigerian tourist center and camps, a platform where someone can create a profile for the tourist center they manage, with picture, price, description and comment, exploring the Restful API implementation and with complete functionality, authentication. This project I plan to expand by adding other functionalities, e.g payment, user profile etc.
- RestFul API
- CRUD functionality for centers added.

# PROJECTS

## **TAYLOR GANG | CLOTHING LINE ECOMMERCE WEBSITE**

React, Redux, CSS(SASS), Redux, firebase

- Frontend powered by react, firebase service for database and stripe payment integration
- redux was use in the execution of this project for state management.
- The aim of this project is to build a full functional ecommerce web application that is scalable, with all the basic functionality of an ecommerce platform, using the best and fastest tools in it development. The app created using react, redux and the database power with google firebase service
- This is one of my most challenging project, because it features most recent and advance front end libraries and technologies.
- Work with reusable component to ensure it optimisation, scalability, and intrinsic functionality.

## **NETFLIX | LANDING PAGE CLONE**

HTML, CSS(SASS), Javascript

- This is project built to showcase my frontend muscle using just html, CSS and vanilla JavaScript, no framework or library used. This project emphasized on so much that can be done using the CSS grid system to display, style and design web page and JavaScript fir other functionalities.

## **TESLA | HOME PAGE CLONE**

React, Redux, Styled Component

- Frontend powered by react.
- redux was use in the execution of this project for state management.
- The styling in the project was implemented with a react library called styled component which allows us to write and style a react component in the same JavaScript (jsx) file it is used, pass specific style as props to a component and more.
- The tools used in this project makes it a beautiful and scalable project.
